

Preparing for the Future

As a parent, you can learn how to prepare your child to plan and prepare for their future education plans.

The Okanagan Education Department will be hosting a workshop for OKIB parents, youth & adult learners on learning how to prepare for the student's academic future, course selections and understanding the process for applying to Post-Secondary Institutes & funding sources. By being prepared, students and parents will know what they can do to plan for the future and learn skills for transition to post-secondary education.

Monday February 1, 2010

New Horizons Building

4:30 pm- 8: 00 pm
