I am a proud OKIB member. My parents are the late Jay D. Louis and Shelley Louis; grandparents are the late Richard Louis Sr. and the late Pamela Louis.

I spent many of my years here in the community until I ventured to UBC where I achieved a degree in Human Kinetics. I then moved to Ottawa, to further my education and become a Dental Hygienist.

I am extremely excited to bring my knowledge and expertise in oral health to the community. I will be available to community members for oral health checkups & screenings, fluoride applications, oral health education. I can provide required referrals and help navigate the oral healthcare system.

I am here to support our community members, to answer questions you may have regarding your oral health or our programs/services.

**June Pfannschmidt, RN**  
Foot Care Nurse

I have been a Registered Nurse for many years and have been with OKIB for almost 10 years.

I manage the Foot Care Clinic in the Bluebird building on Thursdays and Fridays.

This service is provided for Community Members living on reserve. It is provided for individuals with diabetes and/or other medical conditions/situations experiencing pain/discomfort of their feet and/or where caring for their feet is difficult. This service also includes reduction of corns, calluses and thickened nail beds.

Please call the Health Centre to book an appointment for a foot care assessment.

Way' ǵast sǵlǵ ǵalt. My parents are Bert and Virginia Marchand, my grandparents are Peter Marchand and Mary Marchand nee Bercy. I have worked as a Community Nurse for over 12 years, and obtained a degree in nursing from UBCO.

I have worked in surrounding communities as a Community Health Nurse, as well as Interior Health Authority.

I have a passion for Indigenous Nursing and have been honoured and humbled to have worked in my own community throughout this pandemic.

I look forward to further supporting community members and clients within the Community Health Nursing Program.

If you have any questions please give me a call or send me an email.

Way' limlemt.

I am proud to be a Community Health Licensed Practical Nurse & lactation consultant for OKIB.

I was born and raised in the Shuswap/Salmon River area and was privileged to grow up riding my horses and getting to know the beautiful syilx territory and people.

I look forward to, and am excited to be working with Community Members and their individual goals and health needs. I feel honoured to be able to work in this Community providing culturally safe holistic care.

I am a proud OKIB member with OKIB Health since 2010. What an amazing journey that I have been on, enhancing our health services to our communities. I am so appreciative of my family and our Health Teams.

The most important program thus far is the Mammogram Clinics, as we host one every year. There are a number of women that are here today because of the clinics. Thank you for taking the time for your health.

We have come a long way with OKIB's health services. Our teams are growing with the population.

I encourage you to reach out and ask questions.

In Health & Kindness.
