Wildland Fire - K51214 (La Casa Fire) Monitoring update

July 25th 2100 Hours (9:00pm)

Way' Members,

We wanted to update you that the K51214 Wildland fire now referred to as the La Casa Fire is currently estimated at 5.18 Hectares in size. Significant progress has been made from firefighting activity on both the ground and aerial operations by BC Wildfire.

Firefighting activity is expected to continue overnight, and the Central Okanagan Regional District has advised nearby residents that they will continue to see both smoke and flame which may appear more active after dark.

Wildfire activity is expected and is being closely monitored by crews on scene.

The Central Okanagan Regional District has also asked that members of the public avoid the wildfire area unless necessary so emergency responders can safely and effectively carry out their work.

For more updates on the K51214 La Casa Fire and response please visit [BC Wildfire's Webpage](#)

and on the [Central Okanagan Regional District's Emergency Management Webpage](#).

As a reminder, if you observe additional Wildfire activities outside of known zones, please make a report by calling *5555
